www.FastFoodOrdering.com

Dear Sir,

Thank you for your interest in Mood to Eat (MTE®) DBA Fast Food Ordering restaurant online ordering system.

Our system converts your existing website to an online e-commerce POS system that shows and sells your online menu along with modifiers and special instructions.

Website / system functionalities and features are explained on our website www.FastFoodOrdering.com

- 1) **Hosting Plan** Annual Fees (\$250.00)
 - a) Annual ASP.net **hosting plan** with MSSQL: \$180 / Year
 - b) Secure Link (**SSL**) + dedicated IP \$70 / year
- 2) **Data Entry** of your Online menu (All food items and modifiers). Including cropping and resizing dish images. Cost \$2.00 / menu item or modifier
- 3) **Custom Modifications** and new requirements implementation hourly rate: \$75/hour
Required work and estimated hours will be discussed and agreed upon prior to starting. **(Does not apply to all plans)**
- 4) Upgrades and enhancements: Our system is continuously updated with new requirements throughout the year. As a client, you will have the option to upgrade from an existing version to a newer version that includes all the modified features.
 - i) Plans with free updates will not pay for those changes.
 - ii) Plans with custom upgrades or no upgrades will be charged for every updated version. Price \$250 / Updated revised version.
- 5) Commissions will be deducted from completed orders and automatically deposited into MTE account when the total owed amount exceeds \$50.
